Nuclear Decommissioning & Waste Management Summit

London, UK

23rd-24th February 2022

The Conference

Following the success of our previous edition we are delighted to be hosting the 2022 edition of the Summit on 23rd-24th February 2022 in London, United Kingdom.

This year, the conference focus will look at the key issues faced by the companies committed to decommissioning while also providing opportunities to establish working relationships to execute safer and cost effective projects. Over two days, the summit will bring together senior representatives from companies and institutions involved in D&D projects and waste management to discuss their experiences, latest technologies and developments and active solutions to the current industry challenges.

Join us in London to exchange your point of view with your peers and engage in excellent networking opportunities.

Confirmed Topics for Discussion

- Looking at EU Regulations and Policy Updates
- Digitalization of Processes in Nuclear Decommissioning
- Nuclear Decommissioning Case Studies
- Overview of Waste Management in Europe
- Exploring Finance and Resource Management on Decommissioning Projects
- Solving the Technical Challenges of Nuclear Decommissioning
- Transportation and Disposal Packages for Nuclear Decommissioning Waste
- Managing the Transition from Operation to Decommissioning
- Protection of Nuclear Infrastructure from Effects of Climate Change

Who will be attending?

The two day event will bring together senior executive from:

- Nuclear power plants owners & operators
- Policy, regulation, environmental institutions and bodies
- Radioactive waste management companies
- Radiation and health protection agencies
- Packaging & transportation officials
- Technology providers
- Research centres, institutes & universities
- Consultants & market analysts

This edition will create partnerships and cover the major concerns by debating with senior representatives of the industry. The event will tackle societal and environmental concerns by creating an opportunity for collaboration along the supply chain.
