ACI's **8th Arctic Shipping Summit** will focus on practical solutions and discussing challenges, rules, regulations and current issues within the Arctic shipping. We will examine deeply into the IMO's Polar Code followed by a panel debate on the implementation of the Polar Code discussing challenges and outcomes. We will also be delving into Rescue Operations, Oil Spills and navigational equipment that will help ease the process. Other things we will be discussing will be how alternative retrofit designs could enhance shipping operations through the Arctic as well as Arctic Technology to aid through tricky climates. Furthermore key topics will include Marine Biodiversity Developments, Alternative Shipping Routes and Challenges with Mitigating Risk and Insurance.
