5th Operating Specialist Wind Vessels Summit

Hamburg, Germany

21st – 22nd
November
2018

As the wind farms market is constantly growing and changing, in terms of innovations and size, the industry needs to be in step with it. That is why the European market is constantly investing in the renewable energy sector, including offshore wind energy. One of the most important part of offshore operations play wind vessels. With growing size of wind farms, wind turbines and support structures, it is important to adjust particular O&M solutions, SOV's and systems that will comply to the markets' requirements, safety practices and future investments.

ACI's 5th Operating Specialist Wind Vessels Summit will bring together senior executives and experts from ship owners, service providers, naval architects, renewable energy experts, market analysts, consultants, to discuss the latest challenges and developments making an impact on the industry.

Confirmed Topics for Discussion:

- The Future Of Wind Vessels Market
- Comprehensive Analysis Of The Integrated O&M Solutions
- The Importance Of Operating Wind Vessels
- 'Walk To Work' Systems
- Prime Industry Advancements & Future Technology Projects
- Exploring New Operational Opportunities: Offshore Floating Platforms
- Acknowledging The Importance Of Investments
- Key Business Applications & Opportunities For Wind Vessels Operations
- Evaluating The Crew's Maintenance and Safety Practices

SESSION FIVE

Exploring New Operational Opportunities: Offshore Floating Platforms

- What can be proposed in order to help accelerate this technology
- Floating installations and requirements of vessels: Technical aspects and logistics

10:20

CONFERENCE PRESENTATION

Wind Turbines' Installation By Floating Vessels

- Exploring new technologies for offshore wind farm installation: floating wind turbine installation vessels
- Assessing the requirements of floating wind turbine installation vessels
- Evaluating the main challenges of wind turbine installation by means of floating vessels
- Design and training techniques

Rene Lindeboom
Project Manager Offshore
MARIN

11:05

MORNING REFRESHMENTS

11:35

CONFERENCE PRESENTATION

Acknowledging The Importance Of Investments

- How the vessel operators can maximise effectiveness and minimise the costs of wind turbines' installation
- Evaluating the economic pressure on wind farms operators

Andy Geissbuehler
Managing Partner
Renewable Resources International

12:20

CONFERENCE PRESENTATION

Future Installation Vessel Demands

- Foundation installation: XL-Monopiles
- WTG installation: Next generation WTG's
- Same vessels for both?

Malte Paul
Logistics & Construction Manager
E.ON Climate & Renewables Services GmbH

13:05

LUNCH

14:05

SESSION SIX

Evaluating The Crew's Maintenance and Safety Practices

- Innovation in transferring people and tools: mooring the vessels offshore
- Considering the human's factors: wellbeing and performance of the maintenance crew: crew issues, 24 hours working, workability in extreme weather conditions

Stephen Reid
HSSEQ Director
GMS

Wolfgang Hintzsche
Capt., B. Sc., Marine Director
VDR - German Shipowners' Association
